What we know and don't know

- Word of mouth is important
- Visual advertisement
- Have to have quality product/service
- Specific match to your product/service
- Know how to use social media
- Have to “go” to the market
- Someone “run” the front office
 - marketing, financial, etc
- How to photo your product
- Understanding use of key words (SEO)
- Networking, LinkedIn
- Trust (spouse!)
- Taxation rules

Someone, trustworthy to “run” the front office, marketing, financial, etc.

- Partnerships: combination of key skill sets
 - Artist, sculptor (design and operations)
 - Face and mouth piece (Marketing and Sales)
 - Back office (Finance, taxes, insurance)

Relatives, friends, trusted folks, or hire

Challenges:

- Moving your market from many low cost items, to fewer, higher dollar items
- Many sales are direct result of conversations with the artist/sculptor
- Understanding value of cost to “buy” this help, versus the return on you investment
- Reach out to your local schools to ask for internships (no cost, low cost) to help you.

Zone 6 Events-

How to photo your product-

Best ways to “capture” your sculpture

- Think about how you will use that photo: archive, logo, wallpaper?
- Good lighting- avoid direct lighting (open sunshine)
- Soft lighting up front of object- bounce lighting from sides
- Try to avoid flash- makes object look 2-dimensional (flat)
- Try to use a backdrop (drape) to draw eye to object (hard to do when you live on a farm and the object is huge)
- Exploit the key features of your carving; “don’t take great pictures of the bad side”
- Take a lot of photo’s, review and pick the best one

SEO! Using key words! (search engine optimization for geeks)

- SEO can be oversold and costly, and not necessarily effective
- Use of key words, content and other features ensure that the web will “find you”
- A search engine is a algorithm (software code) that looks throughout the web for your key words and returns most likely “hits”
- Google remembers what you searched on... and clicked on..... And then improves its search with confirmation that you were happy with where they sent you..... and conversely. So it will customize what it returns to you based upon your web searches.
- Remember, these features can be of benefit to you and also.....

Networking

- LinkedIn- was set up to provide a professional site to share information among common user groups- “to get thru a door”
 - -example: I need a contact at McDonald’s and don’t know anyone...use LinkedIn to get introduced to a contact who may get you in the door
- Networking- gathering of professionals to share them ideas
 - get to know a Real Estate agent.... Rent them a carving for an open house
 - Sell carvings to buyer’s, seller’s and agents who may give a housewarming gift
 - Landscapers, builders
- Your local chamber of commerce- monthly events
- Local Artist Council’s, guild’s etc.
- Business Network International (BNI)
- Carver network.... Consider referring a customer to “the best athlete for the job”- even if its not you!
